INTRODUCTION

Early American Coinage

The first mint established in this country was authorized by the General Court of Massachusetts in 1651 and began operation in Boston the following year. The NE, willow, oak and pine tree coins were the product of this mint. The Bermuda coinage antedates the above by over thirty years but could hardly have had any circulation in the colonies.

In 1658 the Lord Baltimore coins were planned for Maryland but never achieved any circulation as they were all short weight.

William Wood received a Royal Grant to strike copper coins for use in the colonies and his Rosa Americana pieces undoubtedly had some circulation here as well as his Hibernia halfpence which were not accepted in Ireland.

After the Revolution several of the states established their own mints, those of New Jersey and Connecticut having quite an extensive coinage of great interest to present day collectors.

The various experimental and trial pieces speak for themselves as little is known about them, except that a large proportion of them originated in England, evidently as an effort to secure contracts for the preparation of dies for a new coinage.

To the collector who acquires a really scientific interest in this series Crosby's "Early Coins of America" is the only standard work and the sixty years since the publication have added very little to the general knowledge of the subject.

Establishment of the Mint

The United States Mint was established in Philadelphia by an act of Congress dated April 6, 1792 and began operations in March of the following year.

The cents and half cents were struck in 1793, the silver dollar, half dollar and half dime in 1794 and the eagle and half eagle in 1795. In 1796 the quarter eagle, quarter dollar and dime were first coined. The eagle was the gold unit and had a standard weight of 270 grains, with a fineness of 916⅔. The dollar was the silver unit and had a standard weight of 416 grains with a fineness of 892.4. The other gold and silver coins were in proportion. It was soon discovered that these units were undervalued and either being exported or sold as bullion, therefore in 1804 the coinage was stopped, only the smaller coins being continued. The law of 1834, amended in 1837, reduced the weight of the eagle to 258 grains of a fineness of 900 and this new coin was first issued in 1838. The law of 1837 reduced the weight of the silver dollar to 412½ grains also of a fineness of 900. The law of 1834 having placed too low a valuation on silver many of the fractional coins were sold for bullion so that the law of 1853 reduced the weight of the half dollar to 192 grains making all the fractional silver coins subsidiary.

The act of 1873 made necessary an increase in the weight of the half dollar to 192.9 grains in order to conform with the authorized weight of 12.5 grams.

Private Gold Issues

The gold coins struck by private assayers and mints in the United States form one of the most interesting series in the numismatics of our country. The first of these were issued by Templeton Reid, who established a mint near the gold mines in Lumpkin County, Georgia. The next coins were those struck by the Bechtlers, Christopher and August, from 1831 to 1842 or later. Their mint in Rutherford, N. C., struck pieces from the gold of Georgia and North Carolina to the amount of over two million dollars.

Upon the discovery of gold in California and the influx of prospectors and traders there was an immediate need for a medium of exchange other than the unwieldy bags of gold dust. Several firms struck coins in 1849 and the State Assay Office of California, with Frederick D. Kohler as State Assayer, began stamping ingots early in 1850; a few of these still exist. In the latter part of 1850 the firm of Moffat & Co. was designated as United States Assay representatives and Augustus Humbert of New York was appointed United States Assayer to place the government stamp upon the ingots produced by Moffat & Co. This business was in 1852 conducted under the name of the United States Assay Office.

The Mormon coinage grew out of the same necessity and appeared early in 1849. It did not, however, compare with the California coinages in actual intrinsic value. The firm of Clark, Gruber & Co. in Denver coined gold from the Colorado mines and produced over $500,000 worth in 1860 and 1861. The Parsons and Conway companies were much smaller operators.

Way up in Oregon the same need for a medium of exchange produced the two pieces struck by the Oregon Exchange Co. in 1849.

Pattern Coins

The complete series of gold coin patterns has now been listed and the silver coin patterns with the exception of the Trade Dollars. In this edition of the catalogue we are adding the cent patterns one of the most popular series. When the publication of pattern coins was initiated in the Standard Catalogue it was not our intention to make the complete series a permanent part of the catalogue and now that the compilation of the pattern series is nearing completion it is the intention of the publishers to produce a separate book on United States Pattern Coins and Trial pieces. In view of this fact future editions of the Standard Catalogue will only contain illustrations of some of the pattern types most often met with.

General Information

Collectors are urged to consult this feature in the catalogue. Many questions brought up by new collectors will be satisfactorily answered by the information available.

Notes on the Various Denominations

This section of the catalogue was recently initiated and has proved very popular. Some additional information has been added in this edition and collectors are urged to express desires for further notes. During the year such new notes as are prepared will be published in the Coin Collectors Journal.

Editor's Note

The past year has been rather a confusing one for numismatists. The general rise in price of nearly all United States coins has continued unabated and the stocks of the more prominent dealers have been much depleted. New values have been most spectacular in double eagles particularly the proofs. Two large auction sales during the season established new high prices on the scarcer dates of this series. Gold dollars seem to have regained their popularity of former days and have advanced considerably. Three dollar pieces are in great demand with very few collections offered. Silver dollars continue to be much sought for and the prices of early issues and proofs show no sign of receding. Minor coins, always the mainstay of the market, are still the favorites with the average collector. Issues before 1880 are not readily available. Fine large cents are coming into their own again and several high records have been made for choice early pieces. Half cents are in great demand and prices on even the commoner dates have advanced sharply.

Due to circumstances beyond our control it was found necessary to once more advance the price of the catalogue but we hope the important additions will compensate collectors for the added cost.

The editor wishes to thank the many dealers and collectors who, with their suggestions, have greatly assisted in the compilation of this catalogue.

WAYTE RAYMOND.

EARLY AMERICAN COINS

COINS OF THE COLONIES

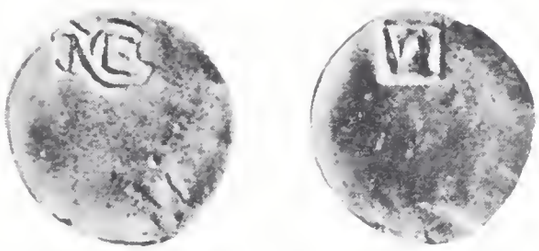
MASSACHUSETTS

Mint established in Boston, 1652

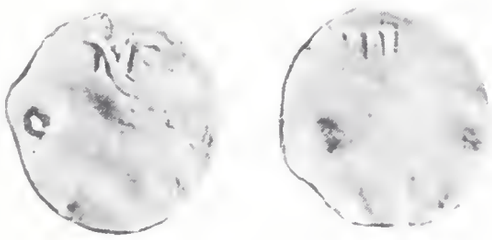
The first mint in the Colonies was operated by John Hull without royal license. The General Court of Massachusetts Colony, in an order dated May 27, 1652, authorized the coinage of shillings, sixpences, and threepences, and fixed Hull's fee at one shilling out of every twenty coined. The mint was located in the rear of Hull's residence in Boston and operations began in the same year.

The N E Coinage

	Good	Fine
N E Shilling	150.00	200.00



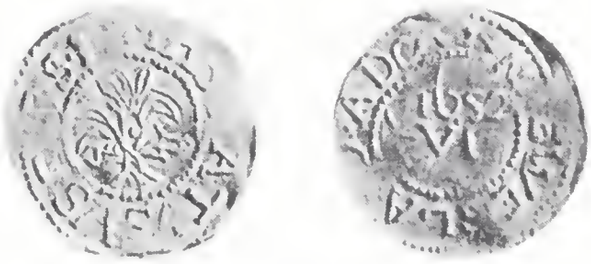
N E Sixpence 600.00



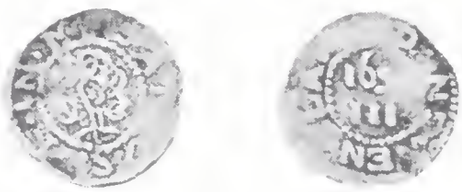
N E Threepence 750.00

Willow Tree Coins

	Good	Fine
1652 Shilling	150.00	300.00



1652 Sixpence 200.00 350.00



1652 Threepence 750.00

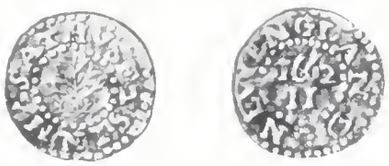
Crosby notes several varieties of the shilling and there are varieties of the sixpence. All are rare.

Oak Tree Coins

		Good	Fine
1652	Shilling	20.00	35.00

1652	Sixpence	25.00	40.00

1652	Threepence	20.00	30.00



1662	Twopence	12.50	25.00

The Crosby tables give eleven varieties of the shilling, eight of the sixpence, six of the threepence and three of the twopence.

Pine Tree Coins

		Good	Fine
1652	Shilling. Large size	20.00	35.00

1652	Shilling. Small size	15.00	25.00

1652	Sixpence	20.00	30.00

1652	Threepence	20.00	30.00

Crosby gives twenty-seven varieties of the shilling, two of the sixpence and four of the threepence.

Good Samaritan Shilling

1652 Shilling .....

MARYLAND

Coinage of Lord Baltimore 1659

Lord Baltimore, who received his Maryland Charter in 1632, found tobacco an unsatisfactory currency and, in 1659, had a quantity of coins struck in London and sent to his brother Philip Calvert, in Maryland. In a letter of instructions he requested that the coins not be imposed upon the people without their consent.

	Good	Fine
Shilling	75.00	125.00

Sixpence	50.00	75.00

Fourpence or groat	100.00	150.00

	Good	Fine
Copper Penny		

CANADA

Coins authorized by Louis XIV

1670 15 Sous	350.00	600.00

1670 5 Sous	15.00	25.00

1670 Double. Copper	1200.00

FRENCH COLONIES

In General

During the reign of Louis XV the first foreign coppers were sent to America. They were struck in Rochelle and Rouen in 1721 and 1722. The 1767 Sous were struck in Paris and afterward countermarked RF under the Republic.

	Good	Fine
1721 Sou. M.m. H (Rochelle)	1.50	3.50
1721 Sou. M. m. B (Rouen)	10.00	35.00

1722 Sou. M.m. H	1.50	3.50

1767 Sou.	1.50	3.00
1767 Sou. Countermarked RF.	1.25	2.50

NEW JERSEY

Coins brought from Ireland by Mark Newby in 1681, known as "St. Patrick halfpence."

Halfpenny	5.00	10.00

	Good	Fine
Farthing	2.50	5.00

There are many die varieties of these coins and the farthing comes struck in silver and gold.

FLORIDA

James II (1685-1688). Plantation token

This token has been variously said to have been issued for Virginia and Florida, but the better view seems to be that it was struck for general circulation in the Colonies.

☆ Part Real. Pewter	5.00	7.50

ELEPHANT TOKENS

Little is known of the history of any of these pieces but it has been conjectured that the Carolina Token was intended for use by the Carolina Company, the New England Token by the New England Company, and the London Token by the London Company. The legend of the latter, however, probably refers to the City of London.

CAROLINA

1694 Elephant halfpenny	50.00	100.00

	Good	Fine
1694 Halfpenny PROPRIETERS	100.00	250.00

NEW ENGLAND

1694 Halfpenny 1,000.00

LONDON TOKEN

(1694) Halfpenny 3.50 7.50

NEW YORKE IN AMERICA

Little is known of the first token associated with New York's history. An opinion has been expressed, however, that it was of Dutch origin and intended as a tradesman's token.

(1700) Token in lead or brass 50.00 100.00

THE ROSA AMERICANA COINS

These coins were struck by William Wood under a patent obtained in 1722 from George I. There were rumors current that it was granted through the intercession of King George's mistress who profited by the deal. The patent was for fourteen years but the coins were struck only during 1722 and 1723. They were of Bath metal, a mixture of silver, tutanaigne and brass, and 16 ounces of the metal were required to coin 30 twopence, 60 pence, or 120 halfpenny pieces.

The unpopularity of these attractive coins was due apparently to either their metal or to the arrangement made with Wood for their coinage, rather than to their appearance.

	Good	Fine
Twopence without date	3.50	10.00

1722 Twopence 4.00 10.00

1722 Penny 2.50 5.00

		Good	Fine
1722	Halfpenny	3.50	7.50

1723	Twopence	5.00	7.50

1723	Penny	3.00	5.00

1723	Halfpenny	3.50	7.50

1733	Twopence	500.00

There are several Rosa Americana patterns, all very rare.

WOOD'S COINAGE

Rejected in Ireland, sent to America.

George I, without first consulting the Irish Privy Council, also granted William Wood a fourteen-year patent in 1722 to provide minor coins for Ireland. These were issued in 1722, 1723, and 1724 but were extremely unpopular because of political reasons and Jonathan Swift, in his **Drapier Letters**, hastened their final rejection.

		Good	Fine
1722	Halfpenny First type.	1.00	2.50
1722	Halfpenny Type of 1723.	2.50	5.00

1723	Halfpenny	.35	.75
1723	Farthing	1.00	1.50
1724	Halfpenny	2.00	4.00

1724	Farthing	2.00	4.00

There are many die varieties of these coins, also several patterns.

CONNECTICUT

Copper coins struck by John Higley at Granby.

From 1737 to 1739, inclusive, John Higley, a copper mine owner of Granby, Connecticut, struck copper tokens for local use to supplement the few minor coins in circulation. The copper he used was so pure that his pieces soon wore smooth and specimens in excellent condition are difficult to find.

Good

1737 Threepence. Three hammers 100.00

1737 Threepence. I am Good Copper 100.00

(1737) Threepence. Broad Axe.....125.00

(1739) Threepence. Broad Axe.....250.00

Threepence. Wheel design. Unique

VIRGINIA

1714 Gloucester shilling...
Brass Token issued by one Richard Dawson.

1773 Halfpenny. Mint state 3.00
Sometimes comes struck on a larger flan and known as a "penny."

1774 Shilling. Silver 1,000.00

COINS OF THE STATES

VERMONT

Vermont, the first state to mint coppers, passed an act on June 15, 1785 granting to Reuben Harmon Jr. the exclusive right to mint the following coins. The mint was located in Rupert and impressions were made by means of an iron screw, attached to heavy timers above, which was moved by hand with the aid of ropes.

	Good	Fine
1785 Cent. VERMONTS	5.00	15.00

1785 Cent. VERMONTIS	3.50	10.00

1786 Cent ..... VERMONTENSIUM.	2.50	7.50

1786 Cent. Baby head	3.50	15.00

There are die varieties of the above pieces.

	Good	Fine
1786 Cent. Bust left.....	12.50	
1787 Cent. Same obverse	25.00	

1787 Cent. Bust r.....	2.50	5.00

1787 Cent. BRITANNIA	3.50

Reverse always poor, date not showing.

1788 Cent	2.50	5.00

CONNECTICUT

In 1785 Samuel Bishop, Joseph Hopkins, James Hillhouse, and John Goodrich were authorized to establish a mint and strike copper coins. They formed a partnership with others and started minting operations in New Haven, but closed down in 1788. Coins weighing 28,944 pounds were passed by the Board appointed to inspect the products of the mint.

	Good	Fine
1785 Cent. Bust r.	2.00	3.50

AUCTORI CONNLC.

		Good	Fine
1788	Cent. Draped bust l.	2.00	3.50
1788	Cent. INDL ET LIB	2.50	5.00

The Connecticut cents have been the subject of much numismatic research and there are a wide variety of dies. Crosby gives over one hundred combinations, many of which may be subdivided.

KENTUCKY

The Triangle token, originated in Lancaster, England, but little is known concerning the Myddelton tokens. The only claim of the first token to Kentucky is the fact that the top star is stamped with a K.

		Fine	V. Fine
(1790)	Cent. Plain edge	2.50	3.50
	Cent. Lettered edge	3.00	5.00
	Cent. Engrailed edge		15.00

1796	Myddelton token. Silver	75.00
1796	Same in Copper	50.00

This token usually comes in proof condition.

MARYLAND

Chalmer's tokens were issued by John Chalmers, a goldsmith of Annapolis, Maryland, in 1783. The Baltimore Town threepence made its appearance in Baltimore, Maryland, in 1790. It was struck by Colonel Standish Barry, who was a soldier in the Revolutionary War at the age of sixteen, and his portrait appears on the obverse.

		Good	Fine
1783	Chalmer's Shilling	10.00	25.00

1783	Shilling. Rings	200.00	350.00

1783	Chalmer's Sixpence	50.00	100.00

1783	Chalmer'sThreepence	25.00	50.00

BALTIMORE TOWN

	Good	Fine
1790	35.00	75.00

Standish Barry Threepence.

MASSACHUSETTS

In 1786 the Massachusetts Legislature authorized a mint to coin gold, silver, and copper coins, but only the latter were struck. Because of the difficulty in getting machinery and materials, the coins cost the State of Massachusetts over two cents for each cent minted, and more than one cent for each half cent. Both of the earlier pieces are believed to have been patterns designed by Paul Revere.

1776 Halfpenny. Three heads.....750.00

1776 Cent. Pine Tree.....750.00

1787	Cent	2.00	3.50

		Good	Fine
1787	Half Cent	2.50	4.00

1788	Cent	2.00	3.50

1788	Half Cent	2.50	4.00

There are numerous die varieties of the cents and a few of the half cents.

NEW HAMPSHIRE

In June, 1776, the New Hampshire House of Representatives authorized copper coins, specifying the device and legends appearing in the pattern illustrated, but for some unknown reason no regular coinage materialized. The illustrated piece is apparently a pattern for the authorized coinage.

1776 Cent.....300.00

NEW JERSEY

An act was passed by the New Jersey legislature on June 1, 1786 authorizing the coinage of copper coins. Two mints were subsequently established, one near Morristown and the other in Elizabethtown, and both were in operation until the Federal constitution was adopted in 1788. The Morristown mint was operated by Walter Mould in his home, about two miles west of Morristown, while the coinage at the Elizabethtown mint was conducted by Albion Cox and Gilbert Rindle in a home known as the "Old Armstrong House."

Although all the "horse and plow" New Jersey cents of the regular issue are of a single type, there are enough varieties to satisfy the most enthusiastic collector.

	Fine
1786 Immunis Columbia Cent	300.00

1786 Eagle Cent	500.00

(1786) Washington Cent	1,000.00

	Good	Fine
1786 Cent		1,000.00

		Good	Fine
1787	Cent	1.50	2.50
1787	Cent. PLURIBS	2.50	5.00

1788	Cent	1.50	3.00

1788	Cent. Fox variety	5.00	10.00

1788	Cent. Horse's head l.	3.50	10.00

There are a large number of varieties of New Jersey cents splendidly illustrated on Dr. Maris' large plates. We only show some of the most interesting.

NEW YORK

New York state had no official colonial mint, but a private one was in operation at Machins Mill, in Ulster County. The Excelsior and Non Vi Virtute Vici cents are attributed to Thomas Wyon of Birmingham, England. The history of the Immunis Columbia, George Clinton, Liber Natus Libertatem Defendo and Nova Eborac cents is very obscure and unreliable.

The Mott and the Talbot, Allum and Lee tokens were issued by two New York firms as tradesmen's tokens to relieve the shortage of good copper coins in circulation. The Theatre at New York penny is one of a series of English tokens.

		Good	Fine

Penny. Theatre at New York 25.00 35.00

EPHRAIM BRASHER'S DOUBLOON

Most of the colonists were so poor they had little need for a gold coinage, but it was desirable for the larger business transactions so Ephraim Brasher, a New York goldsmith, struck a gold piece in 1787. These were worth $16 at that time, but are now extremely rare and valuable.

1787 Doubloon 5,000.00
Punch on wing. GOLD.

1787 Doubloon 5,000.00
Punch on breast. GOLD.

CASTORLAND

A French colony established at Carthage, N. Y.

This was apparently an honorarium given to officers of the company in charge of the French settlement, Castorville, in New York, for attendance at board meetings, but may have been in circulation. Modern copies may still be obtained at the Paris mint.

	Unc.
1796 Half dollar	7.50

Silver restrike.

1796 Same	3.50

Copper restrike.
Originals of this coin, struck on a thick flan with milled edge, are very rare.

RHODE ISLAND

This token, evidently of Dutch origin, shows Admiral Howe's flagship on obverse and troops landing on reverse.

	Good	Fine
1778-1779 Ship token	5.00	10.00

EARLY UNITED STATES

CONTINENTAL CURRENCY

The so-called Currency Dollars are patterns of English origin and not uncommon in superb mint condition.

		Good	Fine
1776	Pewter Dollar. CURENCY	20.00	35.00
1776	Silver dollar. Same variety		2,000.00
1776	Brass dollar. Same variety	200.00	350.00

1776	Pewter Dollar. CURRENCY	20.00	35.00

1776	Pewter Dollar. E G FECIT	25.00	40.00
1776	Silver Dollar. Same variety		2,000.00

NOVA CONSTELLATIO SILVER

Struck in silver, these were unquestionably made as patterns for a national coinage, and seem to be based on a plan for coinage devised by Gouverneur Morris, assistant to Robert Morris, head of the infant Finance Department.

The copper tokens are of English origin.

1783 Mark—1000 Mills. Silver

1783 Quint Second variety. Silver

1783 Quint—500 Mills. Silver.

1783 Cent—100 Mills. Silver.....1,500.00

The first three pieces are unique. There are two specimens known of the 100 Mill piece.

NOVA CONSTELLATIO COPPERS

1785 Cent. Blunt rays CONSTELATIO.	2.50	6.00

There are several die varieties of these coins.

1786 Cent. Very scarce 50.00

THE FUGIOS

The Fugio cent was the first coin struck by authority of the United States, but it was minted by James Jarvis under a contract with the government. The Federal Congress specified that three hundred tons of these pieces be struck, and Jarvis purchased some of the copper which he used from the government.

Congress specified the design appearing on both the obverse and reverse of these cents. The legend and the obverse is literally translated "I [time] fly, therefore mind your business." Franklin doubtless influenced the adoption of the design and legend in its general form, although there is no record that he personally originated either of them.

	Good	Fine
1787 Cent	2.00	3.50

UNITED above, STATES below.

There are several rare patterns of the Fugio cent.

IMMUNE COLUMBIA

These pieces are very rare and were struck in gold, silver, and copper, an indication that they were patterns for coins to be struck from any of those metals. They are of English origin.

1785 Cent. Copper	150.00	200.00
1785 Cent. Same variety. Silver	200.00	300.00

1785 Cent. Copper	150.00	250.00
1785 Cent		

Same variety. GOLD. Unique.

	Good	Fine
1785 Cent. Vermont obverse	40.00	100.00

1785 Cent. George III obverse	40.00	100.00

CONFEDERATIO CENTS

These were also patterns and are believed to have been made by Thomas Wyon. It is very likely that all of them, except those muled with the New Jersey cents, were struck in England. One of these pieces was found in Berlin, Connecticut, in 1861 when some workmen were digging up an old drain.

1785 Cent. Small circle of stars.....750.00

This reverse is also known combined with the 1787 New York eagle cent. It is extremely rare.

	Good	Fine
1785 Cent. Large circle of stars		750.00

There are two obverse dies of this variety. This reverse also comes combined with the rare New Jersey obverses — Immunis Columbia, eagle, Washington. A poor specimen is also known muled with the reverse of the 1785 Nova Constellatio cent. All of these coins are of extreme rarity.

MISCELLANEOUS

The Georgius Triumpho and Auctori Plebis tokens both have many characteristics of the Bungtown tokens which were so plentiful in the colonies. The Pitt token was perhaps struck originally as a medal, but was popular and subsequently used as currency. The Franklin piece was an English token.

The Bar Cent is believed to have been struck in England as a pattern for a United States coinage. The monogram on the obverse, composed of the letters U S A, was taken from the design appearing on a button of an old Continental uniform.

1766 Pitt Halfpenny	3.00	5.00

		Good	Fine
1781	North American Token	.50	1.00

		Good	Fine
1787	Auctori Plebis	1.25	2.00

	Bar Cent	7.50	15.00

		Good	Fine
1794	Franklin Press Cent	2.50	3.50

WASHINGTON PIECES

This series is a very popular and interesting one because of the tribute paid to the father of our country. Most of them were designed and struck in England, and many were apparently intended for the American market. The only pieces struck in this country were the 1792 half dollars designed by Peter Getz of Lancaster, Pa.

	Good	Fine
1783 Cent. UNITY STATES	2.50	5.00

Jacob Perkins Pattern Dollar

Dollar designed by Jacob Perkins of Newburyport. Silver.

SOMMER ISLANDS

(BERMUDA)

Settled by Sir George Somers in 1609.

The Bermuda Islands were once named **Sommer** in memory of Sir George Sommers [or Somers] who was shipwrecked there. James I granted a charter to certain English colonists residing on the islands which included the privilege of issuing coins "to pass currant" among the inhabitants. In 1616 the governor of the Islands learned that certain "base coyne" was being sent from England.

	Good	Fine
Shilling	125.00	200.00

Sixpence	100.00	125.00
Threepence	150.00	250.00
Twopence	100.00	200.00

These coins are struck in a brassy composition and were probably originally lightly silvered.

EARLY MINT ISSUES

Struck during 1792 and without doubt actually circulated as they are found in all degrees of condition.

The Mint Act of April 2, 1792 authorized the establishment of a mint at Philadelphia, and on July 31st of the same year a plain brick building was erected for that purpose. It had the distinction of being the first building erected for public purposes by the United States. The above act directed the Chief Justice of the United States, the Secretary and the Comptroller of the Treasury, the Secretary for the Department of State, and the Attorney General, to make annual inspection of coins struck at the Mint.

The Mint began operations in a small way in 1792 by striking half dismes; tradition has it that the silver for this coinage was from Washington's personal silverware. The regular copper coinage of cents and half cents started in 1793, silver in 1794, and gold in 1795.

	Good	Fine
1792 Half Disme. Silver	60.00	100.00

1792 Disme. Silver	750.00	
1792 Disme. Copper	100.00	200.00

AUGUST BECHTLER
1842-1852

Dollar. CAROLINA GOLD. 27G. 21C. ..... Very Fine 15.00

5 Dollars. CAROLINA GOLD. 128G. 22C. 100.00

5 Dollars. CAROLINA GOLD. 134G. 21C. 75.00

Dollars. CAROLINA GOLD. 141G. 20C. 125.00

A most interesting account of the Bechtlers is contained in a pamphlet published in 1929 by Clarence Griffin, County Historian, Rutherford County, N. C., "The Bechtlers and Bechtler Coinage and Gold Mining in North Carolina 1814-1830."

COLORADO

CLARK, GRUBER & CO.

Denver 1860-1861

Very Fine

2½ Dollars 1860 ..... 40.00

5 Dollars 1860—Weight 138.8 gr. 40.00

10 Dollars 1860—Weight 275.7 gr. 125.00

20 Dollars 1860—Weight 568 gr. 1,250.00

	Very Fine
2½ Dollars 1861—Weight 74 gr.	40.00

5 Dollars 1861	40.00

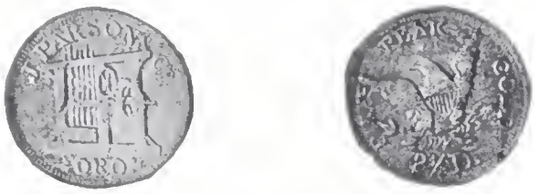
10 Dollars 1861—Weight 295.7 gr.	60.00

20 Dollars 1861	450.00

The firm of Clark, Gruber & Co. was composed of Milton E. Clark, Austin M. Clark and E. H. Gruber. They coined pieces almost exclusively from gold produced in the Colorado mines.

JOHN PARSONS & CO.

Tarryall Mines 1861



Very Fine

2½ Dollars—Weight 73.5 gr. 2,000.00

5 Dollars—Weight 128.3 gr. 3,000.00

Parsons' mint was located near the Tarryall Mines which were discovered in 1859.

J. J. CONWAY & CO.

Georgia Gulch 1861

2½ Dollars—Weight 68 gr. 4,000.00

5 Dollars—Weight 140 gr. 2,500.00

Very Fine

10 Dollars—Weight 260 gr. 5,000.00

Conway & Co. are thought to have been located in Parkville at the mouth of the Georgia Gulch.

UTAH

MORMON COINS

1849-1860

2½ Dollars 1849—Weight 56.5 gr. 150.00

5 Dollars 1849—Weight 113.5 gr. 75.00

10 Dollars 1849—Weight 221.5 gr. 1,500.00

	Very Fine
20 Dollars 1849—Weight 444.5 gr.	650.00

5 Dollars 1850—Weight 111 gr.	75.00

5 Dollars 1860—Weight 116 gr.	200.00

The Mormons established their mint to coin the large quantities of gold dust received from California. All the coins were short weight in comparison with the regular U. S. coinage. The 20 Dollar piece was the first coin of this denomination to be struck in the country. It had an intrinsic value of only $16 to $18. The letters G.S.L.C.P.G. = "Great Salt Lake City Pure Gold."

ENCASED POSTAGE STAMPS

Patented by J. Gault, 1862

The great scarcity of small change during the Civil War made these stamps, encased in a metal frame, very popular. Many concerns used them as an advertising medium and placed their names on the back in embossed letters.

Values are for very fine specimens with mica intact.

Aerated Bread Co., New York

1 Cent	15.00

Ayer's Cathartic Pills, Lowell, Mass.

1 Cent	5.00
3 Cents	5.00
5 Cents	7.50

COUNTERMARKED COINS

Necessitated by the large trade with the West Coast of South America.

Listed in the probable order of their issue.

CHARLES IV

21 Dollar countermarked M R. Usually found on the 18th century coins, particularly the crude Potosi dollars 10.00

FERDINAND VII

22 Dollar countermarked with arms of Spain and inscription — HABILITADO POR EL REY N.S.D. FERN. VII. On reverse center—MANILA 1828. Wide serrated border part of countermark evidently to cover original legends 10.00

23 Dollar. Similar but countermark is MANILA 1830 ..... 25.00

24 Dollar countermarked with shield of arms only on obverse and MANILA 1828 in center of reverse. Without wide countermarked border 5.00

25 Dollar countermarked F.7.o crowned in small circular indentation 5.00

ISABELLA II

26 Dollar countermarked Y. II. crowned in similar indentation 3.50

The two preceding countermarks are found on nearly all South and Central American dollars of the period. A few smaller silver coins have been seen with these countermarks as well as some gold pieces. The latter are very rare.

CONFEDERATE STATES OF AMERICA

		Unc.
1861	Half Dollar	3,000.00
1861	Half Dollar. Restrike	40.00

1861	Cent. Copper	50.00
1861	Cent. Copper-nickel	100.00

In 1861 the Confederate government took over the New Orleans mint and prepared a die for a half dollar. It is said that four specimens were struck from this die using the regular 1861 obverse. Only two pieces are known to exist. Many years after the Civil War the die of this coin was discovered and eventually bought by Mr. J. W. Scott. Mr. Scott purchased about 500 half dollars of 1861 and had the Confederate die impressed upon the reverse after it had been planed off. These coins are the pieces known as "restrikes." At the same time Mr. Scott struck about 500 pieces in white metal with the Confederate impression on one side and his advertisement on the other.

The cents were a speculative issue designed by Geo. H. Lovett, a medallist and die sinker of New York City.

GENERAL INFORMATION

United States Mints

Philadelphia. Established 1792. No mint mark.
Charlotte, N. C. Established 1838. Closed 1861. Mint mark—C. Gold only.
Dahlonega, Ga. Established 1838. Closed 1861. Mint mark—D. Gold only.
New Orleans, La. Established 1838. Closed 1909. Mint mark—O.
San Francisco, Cal. Established 1854. Mint mark—S.
Carson City, Nev. Established 1870. Closed 1893. Mint mark—CC.
Denver, Colo. Established 1906. Mint mark—D.

Mint Marks

The Philadelphia mint coins do not have any mint marks.

The only exception is that of the new composition 5 cent piece first coined in 1942.

Other marks are found as follows—

Indian head cents—under the wreath.

Lincoln cents—under the date.

Liberty head nickels—under period at left of CENTS.

Buffalo nickels—under FIVE CENTS.

Jefferson nickels 1938-42 at right of building. After 1942—large letter above building.

Silver Three Cents—1851. O only. O opposite opening of C.

Half Dimes—under value or under wreath.

Dimes—under value or under wreath. From 1916—at left of fasces.

Twenty Cents—under eagle.

Quarter Dollars—under eagle. After 1916—at left of date. After 1932—under eagle.

Half Dollars—1838 and 1839 O. The O over date. After 1840—under eagle. 1916, 1917—On obverse over motto. After 1917—On left part of reverse near edge.

Silver Dollars—under eagle. After 1921—near eagle's wing on left part of reverse.

Trade Dollars—under eagle.

Gold Dollars—under wreath.

Quarter eagles—1838, 1839 over date. 1840 to 1907—under eagle. 1908 to 1929—near border on lower left part of reverse.

Three Dollar Pieces—under wreath.

Half eagles—1838, 1839 over date. 1840 to 1908—under eagle. 1908 to 1929—near border on lower left part of reverse.

Eagles—under eagle. After 1907—at left of value.

Double eagles—under eagle. After 1907—above date in rays.

The size of mint marks varies greatly, particularly on the early S coinage. CC mark is apt to be uneven and also varies in size. The placing of mint marks also makes additional varieties.

Mottoes On Our Coins

The motto "E Pluribus Unum" first appears on the half eagle of 1795 being featured on the scroll above eagle, as copied from the Great Seal of the United States. "In God We Trust" first appears in 1864 when the Civil War had stirred up a great religious sentiment in the country.

Signatures on Coins

The mint engraver, J. B. Longacre, placed his initials on the double eagle of 1849 and on the Three Dollar piece issued in 1854, in both instances on the truncation of the neck. The 1864 and subsequent issues of the bronze cent have L on the ribbon hanging from bonnet.

The engraver, Geo. T. Morgan, placed an M on both sides of his design for the silver dollar of 1878. This shows on the truncation of the bust and on the wreath ribbon of reverse.

Charles E. Barber engraved a B on the truncation of the Liberty head on the 1892 silver dime, quarter and half dollar. The 1907 double eagle bears the initials A S G (Augustus St. Gaudens) under the date although he did not sign the eagle.

The new 1908 coinage of quarter and half eagles shows the initials B.L.P. (Bela L. Pratt) under the Indian head. The 1921 Peace dollar has the letter F under the head (Anthony de Francisci). The 1916 half dollar bears the initials of A. A. Weinman in monogram in the lower field of the reverse, also on the obverse of the dime.

The letter M appears at the base of the right portal on the 1916 quarter dollar and is the initial of Herman MacNeil.

James E. Fraser, the designer of the buffalo nickel placed an F under the date.

The Lincoln Cent of 1909 had the initials V.D.B. (Victor D. Brenner) on the reverse but being rather conspicuous they were removed before the end of the year, but later replaced under the shoulder in 1918.

Arrows At Date

The arrows on either side of date on coins of 1853, 1854 and 1855 indicate the reduction in weight while those on the coins of 1873 and 1874 indicate the slight increase.

Drapery on Figure of Liberty

It will be noted from the various illustrations of the silver coins 1839 to 1841 that one variety has the elbow quite free while the other has a much more extensive drapery covering the entire elbow. Other differences also occur.

The Condition of a Coin

PROOF—Specially struck coins with a mirror-like surface sold to collectors at the United States Mint.

UNCIRCULATED—A new coin showing no evidence of circulation, although not necessarily brilliant.

VERY FINE—Showing only slight evidence of circulation.

FINE—Showing slight sign of wear but still an attractive piece.

VERY GOOD—Showing more or less wear but lettering clear and plain.

GOOD—Showing greater wear with higher parts of design partially gone.

FAIR—Considerably worn and type does not all show.

Proof Coins

Proof coins, in all metals, were first struck at the mint for collectors in 1858. They have a mirror-like surface unlike the regular issues. All such pieces were originally sold at a premium. The U. S. mint abolished this practice in 1915 but resumed it again in 1936. Sets were struck from 1936 to 1942 and it is thought the practice may be resumed after more normal conditions prevail.

Valuations Quoted

Condition governs the price of a coin and some pieces are rarely met with in fine state; for this reason there may be a wide variation in price between good and fine preservation. This is especially true of the early American pieces and the first types of cents and half cents. An attractive color and appearance also adds to the value of such coins.

NOTES ON THE VARIOUS DENOMINATIONS

Half Cents

The standard work on this subject is—The United States Half Cents by Ebenezer Gilbert. New York 1916.

Early dates 1793 to 1797 are becoming increasingly scarce in fine condition.

The punctuated date on 1795 is a comma-like die break after the 1.

The two varieties of 1796 rarely come in better than "good" condition.

1797 lettered edge variety is a very rare coin and when found is usually in poor condition.

1797 plain edge variety frequently comes struck on planchets cut from early cents.

1806 large 6 variety is not uncommon in uncirculated condition.

1831, 1836 Restrikes from the original dies of these years were made, also restrikes from the obverse die and reverse die of 1852.

Large and small berries in wreath. Two reverses, one with large berries and one with small were used on all the rare dates between 1840 and 1852.

Large Cents

The following reference works are usually available—

The United States Coinage of 1793-Cents and Half Cents. By S. S. Crosby. Boston 1897.

A reprint has been made of the plates.

Varieties of U. S. Cents of the year 1794. By Frossard and Hays. New York 1893.

The United States Cents of the year 1794. By S. H. Chapman. Philadelphia 1926.

United States Cents of 1796. Gilbert-Elder. New York 1909.

United States Cents of 1798 and 1799. By Geo. H. Clapp. 1931.

The United States Cents of the years 1801, 1802, 1903. By H. R. Newcomb. Detroit 1925.

United States Cents 1804 to 1814. By Geo. H. Clapp. New York 1941.

The Cents of the United States. By F. W. Doughty. New York 1890. Reprints have been made.

United States Cents 1816-1857. By F. D. Andrews. Reprints have been made of this pamphlet.

United States Copper Cents 1816-1857. By Howard R. Newcomb. New York 1944.

Values on early cents in very fine to uncirculated condition are very difficult to give as so much depends upon the striking, color and general appearance.

Proofs exist of nearly all dates of cents after 1820. They are very rare.

1793. Of the famous strawberry leaf variety only four specimens are known, three being in the collection of the American Numismatic Society.

1795 Jefferson head. This interesting coin is not included in the catalogue as it does not seem to be a mint product.

1804 Restrike. Struck from dies discarded and sold as junk. Not a mint product.

1823 Restrike. Struck from dies discarded by the mint. Not a mint product.

1826 over 25. The top line of the 5 barely shows under the top curve of the 6.

1839 over 36 usually comes in worn condition although a few specimens are known very fine to uncirculated. In such condition they command a very high price.

The various names given to the different types of 1839 cents date back to early collecting days.

Small Cents

The entire series of copper-nickel cents 1856 to 1864 often come in uncirculated condition with a brilliant proof-like surface. Real proofs have a sharp edge and must not be confused with such pieces.

1856 Flying Eagle Cent. This coin is really a pattern but has always been collected by cent collectors. No definite information seems to exist as to how many were struck but it is probable that the number was about one thousand. A hoard of some 400 or 500 pieces exists and may some day come on the market.

1857-1864. The composition of these cents was 88 parts copper and 12 parts nickel.

Recut dates of 1856, 57, 58 are often met with. They usually bring a slightly higher price than the regular dies.

1858 Flying eagle. In the large letter variety the base of the A in AMERICA touches the base of the M.

1858 Flying eagle. There are a good many die varieties of this coin and really more than two sizes of letters.

1894 Date recut. Rather scarce.

The bronze Indian head coins both uncirculated and proofs are usually toned in various color shades. Perfect bright red coins are very scarce and command a price well above catalogue.

The bronze cents from 1864 on are composed of 95 parts copper, 3 parts tin, 2 parts zinc.

1864 with L on ribbon for Longacre, the designer of the coin. The cut shows plainly where the L is found.

Lincoln Cents

Proofs of this series are usually very unsatisfactory except those 1936 to 1942. The coins 1909 to 1916 have a surface almost the same as ordinary uncirculated specimens but the edge is sharp. As these early dates were often in the white mint wrappers for several years they are generally badly discolored.

1909 Lincoln. First issue has the initials VDB at the lower part of reverse.

1922 D mint. Poorly struck specimens exist showing the D very faintly or not at all.

Uncirculated cents before 1935 should not be expected in bright red condition, they are usually toned to various shades.

Cents from the S and D mints, particularly those between 1922 and 1930, are frequently poorly struck and really sharp specimens of this period are unusual.

The zinc-steel cents coined in 1943 were struck in steel with a zinc coating of 0.0005 inch. They were extremely unpopular.

Two Cent Pieces

1864 Small motto. The letters are small and block like while the large letters are of an entirely different form.

Proofs of 1864, 65, 66 are rarely found brilliant but are usually a rather dull color.

Nickel Three Cents

The composition is 75 parts copper and 25 parts nickel.

1887 over 86. This is not a very clear over date. The outside lower curve of 6 shows at left of 7.

Nickel Five Cents

The composition of the 5 cent pieces from 1866 to 1942 is 75 parts copper and 25 parts nickel. The coin authorized on March 27, 1942 has the following content—copper 56, silver 35, manganese 9.

Not all proofs of this series are of the same brilliance. Some dates in the 80's or 90's merely have a frosty like appearance but can be identified as proofs by their sharp edge.

1937 D. Some poorly struck pieces of this date give the buffalo the appearance of having only three legs.

1939. Coins of this date have been found with the words MONTICELLO and FIVE CENTS re-engraved.

The buffalo type nickels of the S and D mints are usually not as well struck as the P mint coins. The high relief on Indian head and on buffalo gives an appearance of flatness. The mint marks are often mere blobs. Well struck coins of some dates are almost unknown.

Half Dimes

The standard work on this subject is—The United States Half Dimes by D. W. Valentine. New York 1931 (American Numismatic Society).

Dimes

1796. One of the commonest varieties of this date shows a lumpy die break at left of date.

1798 over 97. There are two reverse dies combined with this obverse, one having 13 stars above eagle (the rarest) and the other 16 stars.

1798. Perfect date. Two distinct varieties of obverse, one with very small 8, the other with an average size 8.

1804. Two varieties of reverse, with either 13 or 14 stars above eagle.

1805. Two reverse varieties. With either 4 or 5 berries on olive branch in eagle's claw.

Twenty Cent Pieces

1876 CC. While the mint records show a substantial number were coined less than ten specimens are known. All of these with one exception are in mint condition.

Quarter Dollars

The standard work on this subject is—The Early Quarter Dollars of the United States, 1796-1838. By A. W. Browning. Unfortunately only 50 copies were issued.

1822. 25 over 50 variety. The engraver made an error and first cut 50 instead of 25 as value on reverse.

1827 Restrike. Several restrikes made from discarded dies in both silver and copper.

The same reverse was used in 1828.

The entire series of "Liberty standing" quarters is difficult to get well struck up. The head is usually rather indefinite. The two coins of the first type 1916, 1917 have the best dies.

During 1934 a slight change was made in the reverse die of the Washington quarter the motto being engraved in much heavier lettering. The coinage of the first part of the year was in the same style as on the 1932 coin, the motto being in rather lightly engraved letters. These seem to be much scarcer than the later type.

Half Dollars

The standard work is—A Register of Half Dollar Die Varieties and Sub-Varieties. By M. L. Beistle. Shippensburg, Pa. 1929.

1794, 1795. There are several varieties of the first date and over 30 varieties of 1795. All are listed and illustrated in the Beistle work.

1807. 50 over 20 variety. The engraver made an error on first figure of value on reverse and first cut a 2 instead of a 5 in 50.

1832 Large letters on reverse. May be quickly identified by the heavy die break across eagle's wing.

The S mint half dollars 1858 to 1865 show three distinct sizes of S.

Silver Dollars

Reference work on early dollars—Hazeltine Type Table Catalogue of U. S. Dollars, Half Dollars and Quarter Dollars. Philadelphia 1881. Reprints have been made.

1801, 1802, 1803 Restrikes. These coins were made about 1870, obverses of 1801 and 1802 from entirely new dies, obverse of 1803 from an old die. All of the dollars have the reverse of the 1804 dollar of first type.

1804. The first dollar of this date was acquired from the mint about 1845. The dies being extant several others were struck between that time and 1878. The later strikes are from the second die. Of those struck from the first die only six are known.

1836, 1838, 1839. While these have generally been accepted as part of a collection of dollars they are really the first patterns of the Gobrecht design regularly adopted in 1840. For a complete list of Gobrecht dollars see under Pattern Coins.

United States Gold Coins

Where an unusually small coinage occurs we have placed the number in brackets after the date. Early dates of 1795 to 1834 are quoted only in very fine condition. Worn specimens sell for less and really uncirculated pieces bring a great deal more.

Gold Proofs

This rare series represents the "de luxe" group of a United States coin collection. While the mint records are not complete it is known that only a small quantity of sets were made in any year and those of the period before 1885 are very rare. Proofs before 1908 are struck on polished planchets and present a mirror-like appearance. The new coins struck in 1908 were made with the new sand blast finish adopted some years before in the French mint.

Gold Dollars

1849. Open and close wreath. The first issues of this year have a wreath with branches spread wide. In the latter part of the year the type shows the branches drawn up to the top close to figure.

The records of the Charlotte mint show a coinage of 4 pieces in 1854. but no specimen is known. It is probable that they were dollars of 1853 delivered by the coiner in 1854.

1855 C, D, O. The 8 in date is very weak and barely shows on any of these dates. The 1855 D is the poorest struck.

The Dahlonega mint shows a coinage of 1,566 pieces in 1860 but none in 1861. It is probable that the fiscal year includes both dates.

Quarter Eagles

1834 with motto over eagle is one of the great rarities. Probably not over a dozen are known.

No mint record exists of a coinage in 1841 but 2 or 3 specimens have turned up in proof sets of that year. One or two others are known, that are evidently impaired proofs showing circulation.

1845 O. While there is no mint record of coinage a number of specimens have turned up and the coin is now usually obtainable.

A small quantity of 1848 coins were stamped CAL over eagle to indicate that they were struck from the first California gold received at the mint.

Three Dollar Pieces

The mint record of the rare dates is evidently confused as 1873 is not nearly as rare as indicated by the coinage record and at least 30 specimens are known of 1875.

1856 S. Large and small mint mark S of which the smaller is much the scarcest.

1870 S. Only two specimens of this coin were struck. One remains in the cornerstone of the San Francisco mint, the other is in a private collection.

Half Eagles

The many great rarities in this series would make a story by themselves. Only a very small number of specimens are known of such dates as 1798 small eagle, 1815, 1819, 1821, 1822, 1824, 1827, 1828, 1829, 1832.

1822. Only three specimens are known of this coin, one being in the U. S. Mint Collection.

1832. Curled 2, 12 stars is one of the rarest U. S. coins. The editor knows of only three pieces.

We have seen one or two coins dated 1916 evidently of the Philadelphia mint but are not convinced they are not S mint pieces poorly struck so that S does not show.

Eagles

The demand for the first types 1795 to 1804 has increased enormously since the last catalogue was published. We have given a valuation on the dates 1838 to 1854 only in very fine condition as uncirculated specimens are rarely met with and those of a lesser grade seldom collected.

The St. Gauden's design in 1907 has as interesting varieties as the double eagles. Of the variety with periods and rolled edge only 50 are said to have been struck while the same variety with sharp wire edge is said to have been coined to the extent of 500 pieces.

The St. Gauden's type eagle adopted in 1907 has 46 stars on edge up to and including 1911. From 1912 to 1933 there are 48 stars.

The 1933 eagle is quite a rare piece and probably not over 25 specimens exist.

Double Eagles

Twenty Dollar pieces of the 19th century are very unusual in really uncirculated condition. These coins were made to use and are usually nicked and scratched by being in bags.

The St. Gauden's type produced in 1907 brought forth a number of interesting varieties. Some of the dates are of extreme rarity notably 1921 of which only 4 or 5 specimens are known, 1931, 1932 of which there are perhaps 25 known. All specimens of the 1933 coin have finally been ordered returned to the Treasury Dept. by the U. S. Secret Service on the ground that they were not legally released by the mint.

The St. Gauden's type double eagle first struck in 1907 has 46 stars on the obverse up to and including 1911. From 1912 to 1933 there are 48 stars on obverse.

Private Gold Coins

We have adopted a system of valuing this series in very fine condition only. Private gold coins in uncirculated condition are very rare and command high prices when offered.

California Gold

Small gold coins were privately struck for use in California from 1852 to 1881 but they were more in the nature of souvenirs and were not in general use. Certain charms in imitation of these coins are still sold in western curio shops.

[5] Copper cents and half cents discontinued by act of Feb. 21, 1857.

[6] Nickel cents discontinued by act of Apr. 22, 1864.

*For U. S. coinage by calendar years 1793–1943, see Annual Report for 1944, pp. 66–73.

Domestic Coin Manufactured by Mints of the United States Since Organization to Include the Year 1935

Tabulation of the coinage 1936 to 1945 follows by years

Coinage during the early years is not susceptible of exact statement by years of actual date on coin, the registry of annual coinage being of coin delivered by the coining departments of mints within the given year, and these deliveries not having been invariably completed within the year of the date on coin as now required.

The following pages are reprinted from the pamphlet "Domestic Coin Manufactured by Mints of the United States" compiled by the office of the Director of the Mint.

For sale by the Superintendent of Documents, Washington, D. C. Price 5 Cents.

Also available at the same source and price—

"Information relating to United States Coins and Medals." Prepared under direction of the Director of the mint.

Gold coinage of the mint at Philadelphia from its organization, 1793, to time gold coin was demonetized, Jan. 30, 1934
